

# Shimmer Scan

**Bring your materials into the world of digital design**

Create digital textures with all the colour, texture and gloss of your materials, and reach the market faster with less waste and lower costs

## Flexible

Scan large textiles up to 1 metre wide, including cotton, satin, jacquard, leather and metallics

## Easy to Create

Do your own scanning using a handheld camera, or let us take care of scanning for you

## Design for Digital

Your digital textures will shine on textile platforms and in 3D fashion design software

swatchbook

## swatchbook member special

Digital textures delivered directly to your swatchbook account, with a 10% discount on all scans
